

## PARKING POLICY

The library provides four parking spaces located on the south side of the building and one handicap parking space in front of the library entrance. During the library's hours of operation, these parking spaces are reserved for library patrons.

During the library's hours of operation, patrons may also park in the Christ Community Church parking lot, located on the east side of the library. A library patron must place a "parking permit", issued by the Wadsworth Library, on the dashboard of his/her vehicle. The Church will not tow any vehicles that have this permit. The library is not responsible for the towing of vehicles that do not display a parking permit.

Library employees must park in the church parking lot during library hours so that patrons can use the library parking. Employees must give their license plate number to the director. The director is responsible for informing the Church office of library employee vehicles.

The director is responsible for notifying the Church of any programs or events at the library.
