WadsworthLibrary

# PARKING POLICY

The library provides four parking spaces located on the south side of the building and one accessible parking space in front of the library entrance. During the library's hours of operation, these parking spaces are reserved for library patrons.

During the library's hours of operation, patrons may also park in the Christ Community Church parking lot, located to the east of the library.

Library employees must park in the church parking lot during library hours so that patrons can use the library parking.

The director is responsible for notifying the Christ Community Church of any programs or events at the library that may impact library parking.

The Christ Community Church is responsible for notifying the library of any dates, times, programs, or events when library patrons or staff may not use their parking lot. In these events, the library will notify patrons and staff.
